## What is this product?

### Type

Tailored Fund - M&M Flexible Class EUR (EUR) Cap is a Public limited company (société anonyme) organized under the laws of the Grand Duchy of Luxembourg and having the status of an undertaking for collective investment in transferable securities under UCITS Law (17 December 2010).

### Objectives

The Sub-Fund seeks to provide absolute returns through capital growth over the long term. The Sub-Fund will invest its net assets mainly, directly or indirectly (through UCITS or other UCIs), in: Equities and equity-linked securities, Fixed income securities, including fixed or floating rates, convertible bonds, zero-coupons, government and treasury bonds, Financial derivatives instruments, listed on a regulated market and/or over the counter (OTC), for both investment purposes and portfolio hedging, Money market instruments, term deposits and liquid assets. These investments will be mainly made in OECD countries and residually in emerging markets, with no fixed limits for the weighting of the portfolio asset allocation. Additionally, the Sub-Fund may seek exposure to currencies and up to 30% to commodities through ETFs or through financial derivatives instruments in commodities indices, in order to provide superior returns as well as a reduction of the investment risk through diversification. The asset allocation between the different asset classes will be made according to the market conditions in place and the performance that each asset class can provide in different market and economic conditions, with a particular focus on the returns, volatility and correlation of the different asset classes. For its investments in equity assets, the Sub-Fund will mainly invest in middle and large capitalization companies. As for the fixed income assets, the Sub-Fund will mainly invest in sovereign and corporate debt securities which have a minimum credit rating of BB by Fitch or equivalent rating by another qualified credit rating agency. The Sub-Fund can invest in assets denominated in various currencies and the risk exposure may reach 100% of the assets, with the main currencies being EUR, USD, JPY and CHF. The exposure to all the other currencies will not exceed 5% of the assets.

### Intended investor

The Sub-Fund is intended for investors who are able to make an investment decision based on this document and the Offering Memorandum, and who have a risk appetite consistent with the risk indicator below. The Sub-Fund may be appropriate for those Investors who seek capital appreciation over the long-term, do not seek regular income and accept the risks associated with this type of investment. The Sub-Fund has been established for an unlimited period of time and is open-ended. However, it may be dissolved by the Board of Directors of the Fund if they deem it useful to protect your interest. Please refer to the Offering Document of the Fund for further details on closure of sub-funds.

## What are the risks and what could I get in return?

### Risk Indicator

The Recommended Holding Period of the product is 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you. We have classified this Fund as 3 out of 7, which is a medium low-risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions will likely impact the Fund's capacity to pay you. **Be aware of currency risk. You will receive payments in a different currency than the official currency of the Member State where the Fund is marketed to you, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** You may lose up to the totality of the amount you have invested in the Fund. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

Performance Scenarios				
Investment of 10,000 EUR (€)		1 year	3 years	5 years
<b>Stress scenario</b>	<b>What you might get back after costs</b>	7,986.42	5,542.5	4,381.2
	Average return each year	-20.14%	-17.86%	-15.22%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	8,224.01	6,664.8	5,524.5
	Average return each year	-17.76%	-12.65%	-11.19%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	9,612.82	8,729.5	7,405.9
	Average return each year	-3.87%	-4.43%	-5.83%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	10,995.25	11,177.6	10,961.1
	Average return each year	9.95%	3.78%	1.85%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR (€)10,000. **The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and may not anticipate any future performance. What you get back will vary depending on how the markets perform and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances and does not take into account the situation where we are not able to pay you.** The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you may get back.

### What happens if the Tailored Fund - M&M Flexible Class EUR (EUR) Cap is unable to pay out?

You may face a financial loss if the Fund is unable to return your investment due to poor performance. The Manager as the manufacturer of this product has no obligation itself to pay out since the product design does not contemplate any such payment being made. Any loss you do suffer as a result of actions of the Manager or the Fund is not covered by an investor compensation or a guarantee scheme.

### What are the costs?

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does (where applicable). The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested minus the total costs (281.94 EUR (€)), which has an annual cost impact of 2.82%.

#### Cost over time

Investment 10,000 Scenarios	If you exit after 1 year	If you exit after 3 years	If you exit after 5 years
<b>Total costs</b>	281.94	834.88	1368.82
Annual cost impact*	2.82%	2.95%	3.10%

## Composition of costs

The table below shows:

- the annual impact of different types of costs on the investment return you may receive at the end of the recommended holding period
- the meaning of the different cost categories.

Impact on return per year for the Recommended Holding Period			
One-off costs annualised over 5 years	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Transactional costs	Portfolio transaction costs	0.0636%	The impact of the costs of the Fund buying and selling underlying investments for the product.
	Other ongoing costs	2.73%	The impact of other costs which may be incurred, including the management fees paid to the Manager.
Incidental costs	Performance fees	0.0234%	The impact of performance fees. The Fund does not charge Performance fees.
	Carried Interest	0%	The impact of performance fees. The Fund does not charge Performance fees.

## How long should I hold it and can I take money out early?

---

Shares of any Fund shall be redeemed at the redemption price on each Dealing Day.

Redemptions of the applicable Fund shall be effected at the Valuation Point on the relevant Dealing Day. The price is based on the net asset value per Share of each class determined at the Valuation Point. Redemption requests received after the Dealing Deadline shall be treated as having been received by the following Dealing Deadline unless otherwise determined by the Company.

## How can I complain?

---

Please write to the management company at its registered office (marked for the attention of the Compliance Officer): 23, Val Fleuri, L-1526 Luxembourg, Grand Duchy of Luxembourg or send an email to [legal@mcsquare.lu](mailto:legal@mcsquare.lu).
