**KID production date:** 31/07/2023

**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

### Type

PLACEURO WORLD EQUITIES (Part D EUR) is an Investment company with variable capital (société d'investissement à capital variable) organized under the laws of the Grand Duchy of Luxembourg and having the status of an undertaking for collective investment in transferable securities under UCITS Law (17 December 2010).

### Term

The Fund has no maturity date. Notwithstanding this provision, the Fund may be dissolved at any time by a resolution taken by the general meeting of shareholders.

### Objectives

The assets of this Sub-Fund will be invested primarily in equities and other equity-type securities (e.g. warrants, subscription rights) listed on any regulated market, and in UCITS, provided that these are subject, in their country of origin, to permanent supervision by a supervisory authority set up by law to ensure investor protection. These UCITS must also have as their main objective investment in shares or stock or sector indices. Accessorily, the Manager, Pire Asset Management S.A., may invest in UCITS subject to permanent supervision to ensure investor protection and having as their main objective investment in bonds or other securities, in other securities (maximum 10% of net assets), in money market instruments, and in cash. The proportion of the Sub-Fund's net assets invested directly or indirectly in debt securities, money market instruments, deposits and cash and structured products with underlying assets composed of debt, money market instruments, deposits or cash will not exceed 10%. The Sub-Fund may use financial derivative instruments for hedging purposes, including authorized futures and/or options contracts on indices, shares, interest rates, currencies, whether on regulated or OTC markets, without the total exposure exceeding 100% of the assets. The Sub-Fund is actively managed without reference to any benchmark index. The underlying investments of this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

### Intended investor

The Sub-Fund is suitable for an investor wishing to participate in the performance of the stock markets through equity-type investments. As stock market fluctuations may lead to capital losses, investors should be able to accept losses with a medium- to long-term investment horizon and have experience of volatile products and financial markets.

## What are the risks and what could I get in return?

### Risk Indicator

The Recommended Holding Period of the product is 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you. We have classified this Fund as 4 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the Fund's capacity to pay you. You may lose up to the totality of the amount you have invested in the Fund. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

Performance Scenarios				
Investment of 10,000 EUR (€)		1 year	3 years	5 years
<b>Stress scenario</b>	<b>What you might get back after costs</b>	7,818.91	6,346.3	5,384.5
	Average return each year	-21.81%	-14.06%	-11.65%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	8,688.62	8,386.3	7,476.8
	Average return each year	-13.11%	-5.70%	-5.65%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	9,861.28	9,532.9	8,907.9
	Average return each year	-1.39%	-1.58%	-2.29%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	12,342.89	14,197.3	15,531.8
	Average return each year	23.43%	12.39%	9.21%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR (€) 10,000. **The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and may not anticipate any future performance. What you get back will vary depending on how the markets perform and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances and does not take into account the situation where we are not able to pay you.** The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you may get back.

### What happens if MC Square S.A. is unable to pay out?

You may face a financial loss if the Fund is unable to return your investment due to poor performance. The Manager and the Manufacturer of this product have no obligation itself to pay out since the product design does not contemplate any such payment being made. Any loss you do suffer as a result of actions of the Manager or the Fund is not covered by an investor compensation or a guarantee scheme.

### What are the costs?

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does (where applicable). The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested minus the total costs (252.02 (€)), which has an annual cost impact of 2.52%.

#### Cost over time

Investment 10,000 EUR (€) Scenarios	If you exit after 1 year	If you exit after 3 years	If you exit after 5 years
<b>Total costs</b>	252.02	764.28	1286.10
Annual cost impact	2.52%	2.56%	2.61%

## Composition of costs

The table below shows:

- the annual impact of different types of costs on the investment return you may receive at the end of the recommended holding period
- the meaning of the different cost categories.

Impact on return per year for the Recommended Holding Period			
One-off costs annualised over 5 years	Entry costs	3.30%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. Max. 3.30% of the amount subscribed to entities and agents active in the marketing and placement of the shares.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Transactional costs	Portfolio transaction costs	0.0146%	The impact of the costs of the Fund buying and selling underlying investments for the product.
	Other ongoing costs	2.51%	The impact of other costs which may be incurred, including the management fees paid to the Manager.
Incidental costs	Performance fees	0%	The impact of performance fees. The Fund does not charge Performance Fees.
	Carried Interest	0%	The impact of carried interest. The Fund does not charge Carried Interest.

## How long should I hold it and can I take money out early?

Shareholders have the right to request the company to buy back all or part of their shares at any time, subject to specific procedures. Redemption requests can be made in terms of amount or number of shares. Shareholders must submit their redemption requests to the Administrative Agent via fax or letter, providing required details such as identity, share quantity, applicable compartment, certificates (if any), payment details, and more. The redemption price is usually paid within seven business days from the redemption date, unless certificates are received later. The company may pay the redemption price in investments from a relevant compartment's assets. Redemption prices can be higher or lower than initial acquisition values. Redemption may be suspended if the net asset value calculation is suspended. If redemption requests exceed 10% of a compartment's net asset value, the company can postpone redemption of the excess part proportionally. The net asset value per share and related prices are determined based on market prices, and this information is available on the company's website. Redemption, subscription, and conversion orders are accepted based on the net asset value of specific days and are subject to specified timeframes.

## How can I complain?

Please write to the management company at its registered office (marked for the attention of the Compliance Officer): 23, Val Fleuri, L-1526 Luxembourg, Grand Duchy of Luxembourg or send an email to [legal@mcsquare.lu](mailto:legal@mcsquare.lu).
